WEB DEVELOPER

SUMMARY

- Highly motivated web developer passionate about technology. Experienced in designing and developing high-quality websites and dynamic web applications using web technologies such as HTML5, CSS3, JavaScript, jQuery, PHP, MySQL, WordPress, Angular, and C#. Proficient in UI Design with around 5 years of experience.

EXPERIENCE:

- Front End Developer, HouseofBats, Buenos Aires, Argentina
February 2019 - Present
- Design and development of websites and dynamic web applications using web technologies such as HTML5, CSS3, JavaScript, jQuery, PHP, MySQL, WordPress, and Laravel.
Collaboration with designers and marketing team to ensure proper implementation of designs and user experience on websites.
Maintenance and updating of existing websites.
Troubleshooting and debugging.

PROJECTS

- Developed a comprehensive Event Management System using Vue.js, designed to streamline the planning and execution of events.
Technologies Used: Vue.js, Vuex, Vue Router, Firebase, Stripe, and Vuetify (for UI components). **2022-2023**
- Designed and developed the corporate website for HouseofBats using WordPress, JavaScript and HTML5/CSS3, **2021**.
- Created a custom content management system using Laravel and MySQL for a recognized makeup company in Argentina, **2020**.
- Design and development of the website for a metallurgical company using HTML5/CSS3 and jQuery, **2019**.
- Improvement and reform of several websites using WordPress 5.0, **2018-2020**
- I am currently developing an e-commerce platform focused on selling Costa Rican coffee and coffee preparation equipment. This project involves utilizing cutting-edge technologies, including React, MySQL, JavaScript, and Node.js.

EDUCATION

Costa Rican Bachelor Degree

Universidad Metropolitana Castro Carazo

Graphic Design focusing on Web development
